OUR: DRUG BUSINESS lected is San Francis co, Cal. After our best withes and expressing our thanks ter the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the sald business.

We are the Oldest Drug firm on the Pacific Coast and he only oad, continuous under the same propreitors since 1815, and have determined to sell our large, prosperous, and well established business on favorable erms.

This is a rare opportunity for men with means, of earling into a profit bibe business with advantages never fore offered.

THEY ARE NOT A VILE

Made of Poor Rum. Whitskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonies," "Appetizers," "Restorers," "Ace, that lead the tippler on to drunkenness and rula, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcohelic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and "to vital organs wasted beyond the point of repair."

For Inflammatory and Chronic Rheumation and Goul. Dysnepsia or Indigestion.

point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Billons, Remittent and Intermittent Fevers, Discasses of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Discasses are caused by Vititate Blood, which is generally produced by derangement

full. Such Disenses are caused by drangement of the Digrative Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizzhess, Sour Eructations of the Stomach, Bad taste in the Mouth, Billous Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offspringsof Dyspepsia. They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalted edicacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SILN DISEASES, Eruptions, Tetter, Salt Phicum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring, Worms, Scald-Head, Sore Eyes, Eryspleas, Helb, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whetever name or nature, are literally dug up and carried out of the system in a chort time by the use of these Bilters. One bottle in such cases will convince the most incredulous of their curative effect.

such cases will convince the most increditions of their curative effect.

Cleanso the Vittated Blood whenever you find its impurities bursting through the sich in Pimples, Eruptions or Sorea cleanse it when you find it obstructed and sluggish in the veina; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WOILENS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

MED FELD. Presented to both Houses of Parliament by Command of Her Majesty. [C. 299, page 4.]

GUNPOWDER,

The powder first tried by the Committee in the BoxerHenry cartridge, and of which they entirely approve, is
know as 'Curtis and Harvey. No 6.' Several other
descriptions manufactured at the Government Factory,
Waltham Abbey, bare also been tried, but have not

afforced the same uniform accuracy of shoot ng.

There appear to be difficulties, conflued, it is believed, to the question of expense, in preducing a powder at Waitham (bbey in all respects equal to 'Cartis and Harvey, '806,' but the Committee, keeping in view the imvey, Now, out the Committee, keeping in view the im-portance of maintaining the great accuracy of shooting of the Martini-Henry ride, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Com-mittee's experiments whether such powder be obtained from the Givernment Fac'ery or from the trade."\*

• Messrs Curtis and Harvey's powder was employed by Mr Henry during the competition for accuracy of shooting and the results then attained were suitstactory, the 'omm thee have, without make get rid of the powder of other manufacturers, continued its use as a standard.

CURTIS & MARVEY take this opportunity of sending an extract from the Report of the Special Committee on the most suitable rifles for the Service; and as THEIR GUNDWERE is so highly commended, they think it desirable to emmunicate the information to their customers and f iends. The recommendation equally applies to all marks and descriptions.

> Thomas Shotbelt, MANUFACTURER OF

Soda Water, Lemonade, Ginger Beer & Syrup,

It has already been announced that the Hon Mr Langevin, Minister of Works for the Dominion, will accompany Mr Sandford Fleming, Chief Engineer of the Canadian Pacific Railway, to this Colony. We have reason to believe that, amongst other things, Mr Langevin will enquire into and report upon the public works necessary to be undertaken by the Federal Government in the Pacific Province. Amongst those works falling within the scope of Federal functions, we may be permitted to allude to some of those the necessity for which is most keenly feit just now. A marine hospital is greatly needed; and it may be suggested whether or not it should be be suggested whether or not it should be constructed with a view to placing a wing of the building temporarilly at the disposal of the local authorities for the purpose of a lunatic asylum. Unhappily there are a great many crazy people in this Colony, and it has long been lelt as a public grievance that such persons can have no fitting accommodation in the the country, but must either be thrust into a ommon prison or sent away into a foreign country. A penitentiary is a foreign country. A penitentiary is needed, wherein our criminals may be made to work hard without being hardened and hopolessly debased by daily executed by the state of th posure to the public gaze. Suitable buildings for the Castoms and Postal dopartments are much needed. British Colnumbia will be the sole representative of the Dominion of Canada on the Pacific, and it is of no little importance that our public buildings should be of a character to make a favorable impression on the beholder. At present the business of these important departments is transacted in unsightly and inconvenient old wooden structures of a character discreditable to the local Government, and which would be a disgrace to the Government of the Dominion. The question of harbor improvements ought also to be brought under the notice of the Minister of Works. acted in unsightly and inconvenient old Victoria harbor ought to be improved yietoria narbor ought to be improved by dredg ng, the removal of several rocks and by being thoroughly re-buoyed. Nanaimo harbor, so completely neglect-ed in the past, should also receive its due share of attention. But, in addition to these, there is another matter which we hope to see pres-ed on the Minister's attention. The shipping and commercial business of Nanaimo, comparatively speaking, of no little importance now, will increase rapidly in importance und r Confederation, and it is highly desirable that it should be connected with the tele graphic system of the Colony. The whole cost of a line to connect Nanaimo with Victoria would probably fall below fifteen thousand dollars. Should the railway come by the way of Nanaimo, which now appears to be highly probable, such a line would become an absolute necessity; but in any case it is eminently desirable, and we do not think the Dominion Government would hesitate about undertaking so very crifing an expenditure when the object to be attained is so desirable. We trust that when the Minister of Works does come

works will be proporly brought under The San Juan Question. In our telegraphic dispatches last week it was announced that the Emperor of Germany had decided the San Juan question, giving that I-land to the United States. We took occasion at the time to point out the absurdity of the announcement. A reference to the provisions of the Treaty of Washington, the full text of which is before us, would lead to the conclusion that at the very least, the question cannot be finally deoided in less than one year, and that it is more likely to occupy three years than one. Article 36 of the Treaty provides that the written or printed case of each of the two parties, accompanied by the evidence offered in support of the same, shall be laid before His Majesty the Emperor of Germany within six months from the date of the exchange of the ratification of the Treaty, and that a copy of such case and evidence shall be communicated by each party to the other through their respective representatives at Berlin. It is also provided that the high contracting Powers may include in the evidence to be con idered by the Arbitrator such documents, official cor-respondence, and other official or public statements bearing on the subject of the reference as they may consider necessary to the support of their respective cases. It is further provided that after the written or printed care stall have been communicated by each party to the other, each party shall have the power of drawing up and laying before the Arbitrator a second and definite stalement, if it think fit to do so, in reply to the case of the other party so communicated, which definite statement shall be so laid before the Arbitrator and also be mutually communicated in the same manner as aforesaid, by each party to the other within six months from the date of laying the first statement of the case before the Arbitrator, Article 37 provides that either party may apply for copies of any report or document alluded to by, and being in the

exclusive possession of the other. The

the respective claims of these and other

remaining articles provide for each of the high contracting Powers being represented by an agent at Berlin, who shall have full power to act in the name and on behalf of his Government; empowers the Arbitrator to proceed when and how he may think fit, either in person or by a person or persons named by him for that purpose, to appoint a secretary or clerk, and to deliver, together with the award, an account of all the costs and expenses to which he may have been put in relation to the matter of reference, which expenses shall forth with he paid by the two Governments in equal moieties. Such may be accepted as substantially the provisions of the Treaty in regard to the San Juan question, and the reader will probably concur with as in the opinion that the award is more likely to come in three years than in one.

MARRIAGE AT ST JOHN'S CHURCH .- Yesterday moreing at 11½ o'cleck, the nuptialof C F Corowall, Eq., member of the Legislative Conneil for Yale-Lytton, and Miss
Charlotte Pemberton, daughter of the Rev
Arthur Gore Pemberton, Incumbent of Kensel Green Cherch. London, were sclemnized by the Very Rev Dean Cridge in the
presence of about 250 persons. The bride
wore a dress with bridal train of white corded silk, a closely fitting basque of the same
material and a long white lace veil, and was
crowned with a prettily arranged coronet
of orange-blossoms. Miss J Dutie McKenzie
Miss Crease, Miss Augusta Pemberton, and
Miss Ada Pemberton were the bridesmaids.
They wore dresses of white tarletan, with
pink bows and sashes, and pink flowers in
their hair. The bridegroom was supported
by his brother, H P Cornwall, Esq, and W
H McUrea, Esq. The bride was given
away by B W Pearse, Esq., Surveyor General, and among the ladies and gentlemen
present were Judge Crease and wife, A F
Pemberton, Esq, and Mrs Pemberton. After the ceremony the wedding party regained their carriages and were driven to the
residence of the Surveyor General, where the
wedding-breaklast was partaken of. In the
afternoon the happy couple, amid a shower terday morning at II} o'cleck, the nuptial. wedding breakfast was partaken of. In the afternoon the happy couple, amid a shower of brooms and slippers, left in a coach and four for Sanich to spend the honeymoon at Eckstien's Hotel.

CHESS .- It has been suggested to us that the Mechanics' Institute might excite some interest, and possibly rut a few dollars into its coffers, by getting up a Cheek Tournament. Daubtless seme one could be found publicespiited enough to place at the discoulded the Institute of public-spirited enough to place at the dis-posal of the Institute something in the shape of a Challenge Cup (it need not be of any great pecuniary value), to be competed for, say, every six months. There must be in unity many chess players who willingly pay a small entrance'— 50 cents or someasuring their strength against, and per-haps picking up a few wrinkles from, un-known antagonists. And then, the Institute might have the honor of bringing to light a second Paul Morphy!

PENAL COMMUNE. - Our telegraphic dispatches announce that the French Government will transport 20,000 Communist prisoners to New Caledonia. The New Caledonia here referred to is an island in the South Pacific Ocean belonging to France. It lies between lattitude 20° and 22° 30′ S and longitude 164° and 167° E. It is 220 miles long and 30 broad, with mountain reaching an elevation of 8000 feet in the reaching an elevation of 8000 feet in the sentre. The island was discovered in 1774 as the Victoria head centre of the Commanists is well knewn to be of an amtitiou turn of mind, we suggest that he might make application to be appointed Lieutenant Governor of New Caledonia.
